Purchase Game DVDs

Did you see one of our 25' tripods at your game? Maybe you spoke to one of our videographers and they gave you the website address to order a copy(ies) of the game(s) on DVD.

What are game DVD's used for?

- **Training** – visual recognition is the best training tool to communicate the lesson
- **College recruitment** – I will hear all the time that game footage is not used or is a waste of time when it comes to coaches, not in our case, we shoot from a 25' tripod and follow guidelines used by major recruitment companies. Ground level, handheld

shaky footage is what the coaches have a hard time viewing.

- Also with todays technology we can take the footage and put it into a URL, your highlight reel is now imbedded into emails sent to coaches and is easy to access with a click of the mouse.
- **Posterity** – a memorable game, rival club, semi or final match in a tournament, share with the grandparents

Tournament Directors

Big Boom Video has access to send multiple 25' tripods to your tournament fields. Teams participating in your tournament can hire BBV to video their games for a very reasonable price of \$180. Each player will receive a DVD (up to 18 DVDs). Footage can be used for posterity, training or creating a college player profile (editing services also available)

Tournament participation to receive revenue

- Include information regarding BBV service in pre-tournament emails to the coaches and managers, asking them to forward the opportunity to the parents
- Include one of our custom web banners on tournament website
- Include footage on tournament website via link
